

SECURITY FOR TOMORROW

As technology continues to evolve, new security measures are needed to address how business is handled safely online as well as offline. Utilizing the new FIDO and FIDO2 protocols, Thetis provides industry-leading enterprise level security measures in the palm of your hand.

Each FIDO key is comprised of W3C's Web Authentication specification (WebAuthn) and FIDO's provides a unique 256-character, (second-step) encryption and prevents unauthorized account access.
